7.8 In case of Reverse Auction, in order to displace a standing lowest bid and to become "L1", a bidder can offer a minimum bid decrement or in multiples of decremental value up to above Max Seal %.

For ex :

Current price :- Rs. 49,000 Decrement value :- Rs. 1000

System Defined Maximum Seal % :- 50,

in this case a bidder can quote minimum decrement amount as Rs 49,000-1000= Rs. 48,000 and maximum decrement amount is $49000-24500-1000=23500=24000^$.*

In case of Forward Auction, in order to displace a standing highest bid and to become "H1", a bidder can offer a minimum bid increment or in multiples of incremental value up to or below Max Seal %.

For ex : Current price :- Rs. 49,000 Incremental value :- Rs. 1000

System Defined Maximum Seal % :- 50,

in this case a bidder can quote minimum increment amount as Rs 49,000+1000= Rs. 50,000 and maximum increment amount as $49000+24500+1000=74500=74000^$.*

This continues as an iterative process.

7.14 In case of auction on total value of items/works, the successful bidder may be required to submit a letter for price confirmation and rates of individual items/works within stipulated number of days after completion of Reverse(Forward) Auction event, besides sending the same by registered post / courier to the tender inviting authority.

7.15 Any variation between the final bid value during RA and that in the confirmatory letter forwarded will be advised to re-work and submit.

7.16 Server time shall be the basis of Start Time and Closing time for bidding and shall be binding for all.

7.17 All electronic bids submitted during the reverse(forward) auction process shall be legally binding on the bidder.

7.18 The chronologically last bid submitted by the bidder till the end of the auction will be considered as the valid price bid offered by the bidder and acceptance of the same by Tender Inviting Authority will form a binding contract between Tender Inviting Authority and the bidder for entering into a contract.

7.19 The last successful bid price quoted by bidder will be considered as valid price at any point of time during Auction.

7.20 If a bidder does not submit bid in the Reverse/forward Auction, the price quoted by them in the price bid shall be considered as the valid price of that bidder. The status of the bidder (L1, L2 etc) shall be evaluated considering either the bid price submitted in Reverse/Forward Auction or the price quoted in the price bid, whichever is lower.

7.21 In case of disruption of service at the service provider's end while the Reverse(Forward)Auction is live due to any technical snag or otherwise attributable to the system failure at the server end, Tender Inviting Authority in consultation with Application Administrator may decide to extend auction if required as per system malfunction procedure displayed in the

home page of the website. In this case, the status quo of Auction will be maintained prior to failure and process would continue from that point onwards.

8.0 Post auction procedure: The Tender Inviting Authority will proceed with the Lowest(Highest) Bid in the Reverse(Forward) Auction for further processing.

9.0 Schedule for Reverse Auction: The Reverse(Forward) Auction schedule will be intimated later on through e-mail and SMS after opening the price bid.

In case, there is no bid in the last {...} minutes of closing of Reverse Auction, the auction shall get closed automatically without any extension. However, bidders are advised not to wait till the last minute or last few seconds to enter their bid during the auto-extension period to avoid complications related with internet connectivity, network problems, system crash down, power failure, etc. The above process will continue tilltimes extension is given during Reverse Auction.
